DETAILED ACTION

Election/Restrictions

Applicant's previous election is acknowledged. In this election, applicant points out that the claims directed to a fuel cell (claims 98-99) were not in one of the restricted groups. This additional restriction is added in order to include claims directed toward manufacturing a specific device as one of those groups.

Claims 1-45, 47-55, 57-71, 73-88, and 90-95 are generic to a plurality of disclosed patentably distinct species comprising: a device selected from one from the group consisting of the devices in the last four lines of page 12 of the specification. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species, even though this requirement is traversed.

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
